EDI/ERP Software protocol

If changes have to be done in EDI or ERP software that may have impact on continuity of EDI message transfers, Jumbo Supermarkten B.V. expects the supplier to communicate to the EDI team of Jumbo.
On major changes we recommend the supplier to test the change together with EDI Service Center of GS1 Nederland (Tel: +31 (0)20 511 38 38 / email: info@esc-lev.nl)

Failure protocol

As a result of an external issue it occurred that orders were delivered twice to a suppliers. As we use a unique order number in our orders, we expect a supplier to trigger on double order numbers to avoid this problem. Jumbo guarantees order numbers to be unique for at least one year.

Remarks

Without any in written permission from Jumbo Supermarkten B.V. it is prohibited to send other EDI message versions to the mentioned EDI-address.
